MOBILE

is the **new rule**

Mobile

has changed the World

Mobile has transformed the way we consume media, interact with products, services and buy.

Consumer Mobile usage is increasing, so Marketers are taking the time to ramp up their Mobile strategy to integrate brands within today's most accessible consumer channels.

Emerging Trends in Mobile Marketing

Smartphone subscriptions are rising all around the world

80% of smartphone subscriptions added during 2015-2020 will be from Asia Pacific, the Middle East and Africa.

The Mobile LANDSCAPE

Mobile Marketing

The biggest winner in Mobile Marketing are **Consumers**. The global adoption rate of mobile devices has been spectacular, driven by technology improvements and lower costs. Mobile devices provide ubiquitous connectivity and an array of applications and services that impact almost every facet of life.

Further Mobile is often **the first point of access** to the Internet, and therefore opens up a huge range of activities and opportunities for Marketers that was previously inaccessible. **A Revolution** that enables brands to connect at the right time, in the right place, with the right personas.

Mobile App v. **Mobile Web**

Mobile App Qualities

Customers install App for services, information and economic advantages. Avoid “distribute”... Via push... but customers very often forget using the App.

-  Requires installation
-  One version for each platform
(iOS, Android, Blackberry, Windows Phone)
-  Expensive costs to develop

Mobile Web Qualities

A Mobile web resource is instantly accessible to users, via a browser, across a range of devices and much more dynamic in terms of flexibility to update content. Content is multi device, multi browser and multi OS.

-  Accessed using browser
-  May be updated instantly on the server
-  Reasonable costs to develop

New Key Priorities for Marketers

Analytics, Digital, and Mobile will change most by 2020
CMOs predict the areas of fundamental change for marketing over the next 5 years

SaaS Markets Growth like no other
The SaaS market is growing 3x faster than the software market (20 % v 7 %) - the 20% growth forecast is expected through to 2020

Marketers are cutting back on Digital Agencies
A growing number of CMOs who prefer to transfer within the company the digital efforts and knowledge

Improving Leads is priority for B2b Marketers
Increase Lead generation and nurturing are the key marketing automation objectives that CMOs are trying to pursue
